## ABOUT THE CLIENT

Shore Memorial Medical Center is a medical group practice that specializes in Anatomic & Clinical Pathology and Emergency Medicine.

## PROJECT SUMMARY

Concord has completed numerous MEP projects at Shore Memorial Hospital. Highlighted projects include:

### EMERGENCY ROOM ALTERATIONS

- MEPF construction documents for modifications to the ER Department
- Alterations and renovations to waiting, registration, security, triage and patient bays
- Relocation of a physician's lounge and installation of a new x-ray

### CARDIOVASCULAR CENTER

- MEPF construction documents for 12,000 sf renovation/alteration

### BOLER REPLACEMENT/DEAERATOR ADDITION

- Construction documents for removal of existing 200HP low pressure steam boiler & replacing it with a new 350HP high pressure steam boiler
- Modification to existing boiler feedwater system
- Installation of new deaerator and boiler feed pumps

### CHAPEL

- MEPF drawings and specifications for construction of new chapel
